ABOUT ME

Kasen is a Full Stack Developer, with a strong ability to turn complex problems into simple and elegant solutions. My experience in both front-end and back-end development makes me a valuable addition to any development team, and I am eager to learn and grow in this field.

TECHNICAL SKILLS

Front End | React, Javascript, NodeJS, CSS, HTML

Back End | Express, MySQL, MongoDB, Mongoose, GraphQL

Developer Tools | Jest, Git, NPM, TDD, Insomnia

SOFTWARE ENGINEERING APPLICATIONS

Lead Developer | Currency Converter

Jan 2023

Web Application to convert currency and check real-time crypto coin pricing

Javascript | HTML | CSS

- Participated in a 1-Week sprint to develop and deploy a web application pulling web APIs to create real-time data.
- Mentored peer engineers on front-end development and best practices for JS
- Conceptualized a professional front-end wireframe to accelerate development more efficiently.
- A link to the repo can be found here [Currency Converter](#)

Lead Developer | College Football Roster Builder

February 2023

The CFB Roster Builder is a full-stack application that allows users to stay up to date with their favorite players.

JS | Handlebars | Express | Node.js
Sequelize | mySQL

- 2nd 1-Week sprint with 3 other developers to develop & deploy our first full stack application.
- Deployed application on Heroku server
- Used GET & POST routes to retrieve and add data
- Sourced a CSS Framework for styling (Bulma)
- Protected sensitive info with environment variables
- A link to the repo can be found [here](#)
